Remarks: If this speaker lamp is not used, please turn the power switch at the bottom to “OFF” to shutdown this machine and reduce power loss.

Specifications

General specifications	
AC adapter requirement	DC 12V 2.0A,100-240V, 50/60Hz
Power consumption	15 W
(W x H x D) Dimension	175 x 132 x 295mm
Net weight (approximately)	1 kg
Working temperature	5 °C to 35 °C (41°F to 95°F)
Working humidity	5% to 90%
Bus power	iPod/iPhone : DC 5V 1A
Lithium Battery Capacity	7.4V 2000mA
Input	
PORT.IN	500Mv(3.5mm stereo jack)

Amplifier	
Power output	10 W X 1ch(1kHz@4Ω)
T.H.D	1%
Loudspeaker	
Type	built-in
Nominal impedance	4Ω
Rated power input	15 W
Maximum power input	20 W
Lamplight	
Maximum power	4W
Maximum brightness	1050 lx(20cm distance)
Brightness adjustment	three levels light-dimmer

Instructions to adjust the light

Step 1: push up the lamp panel

Step 2: pull out the lamp panel to the fix location

:

Step 3: Adjust the lamp panel up to 35°

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
